One of our exchanges remarks: It takes money to run a newspaper as well as any other business; no paper will succeed financially that carries a dead-head system. Any mention of people's affairs that they are anxious to see in print is worth paying for, and when judiciously done is worth as much as any other investment of the same amount.

RIVER NEWS.—The Mississippi at this point has reached its highest stage this week. A larger portion of all the bottom farm lands is completely submerged, and farm, operations, of course, completely stopped. The news from above is that all the upper rivers are falling, except the Missouri, which is on a fearful flood. The snows are melting rapidly. It is impossible for us to know what the river is going to do the next few weeks. It must fall here for several days, but it is probable another rise may come on this water the coming week, and so on, until in May.

ADMITTED TO BE THE FINEST PICTURES THEY EVER SAW.—Mr. Jas. E. Hendry, artist of New Madrid, Mo., writes to Mr. H. S. Campbell, "I showed your pictures in all the principal galleries in St. Louis, and they, one and all, said that they were the finest plate work they ever saw." This is the testimony of the best judges in the United States, and it is the popular opinion of all those in this section who have examined Mr. Campbell's pictures. As you read this, think of the importance of preserving the pictures of your loved ones, and remember to call at Campbell's gallery.

HICKMAN BUSINESS AND MARKETS.—Business in Hickman this week has been limited, some days the dry goods men doing very well. There is no great life in any department.

### CRYSTAL, TENN.

El. Query Column.—Please inform me whether or not, the so-called Confederate Government issued gold or silver coins?

REQUIRER.

FARMER.

Answer.—The chimneys, tumblers, etc., are put into a pot filled with cold water, to which some common table salt has been added. The water is well boiled over a fire and then allowed to cool slowly. When the articles are taken out and washed they will be found to resist afterward any sudden changes of temperature. This is true, but they all will break.

### EL. QUERY COLUMN.

Is it true that there are persons right and left sighted?  
CONSTANCE.

Answer.—A simple experiment appears to prove that we are right or left-sighted, according to the position of the object. As you sit in your chair, point to any object across the room with both eyes open, and no attempt at sighting. Close the left eye and you will find you are still pointing accurately at the object; but close the right eye and you will discover with the left eye you are pointing to the right of the object, provided you are right handed. The result is the same whether the finger of the right or left hand be used in pointing.

### NEAR FULTON, KY.

El. Query Column.—Please answer the following questions: 1st. What is the story of Beatrix Cenci? 2nd. Why is it we do not hear as much about efforts to reach the South Pole as we do about reaching the North Pole? 3rd. Did the Siamese twins die at the same time? 4th. Is there anything peculiar about the mad stone?

Answer.—1st. You can learn the story by reading Shelley's poem "The Cenci." 2nd. The South Pole is not connected with commercial highways, besides, explorers have found insurmountable barriers of ice about it. 3rd. They died about the same time, whether exactly at the same moment or not we do not know. Their bodies were taken from their home in North Carolina to Philadelphia by the steamer "The Cenci." 4th. The old idea about the mad stone was that it was a stone taken from the stomach of a perfectly wild deer, but to the naturalist it is a coral, very common and plentiful in Mexico. Walls in Vera Cruz are built out of it.

## The Crop of Colonels.

[Charleston News and Courier.] A few days ago we struck a frightful text. It was furnished by a sample of the letter paper used by a prominent lawyer of this State in his general correspondence. These words were printed upon it: "To Colonel."

"Dear Colonel—"

Can it be that a majority of this gentleman's correspondents are colonels? Can it be that one of his large acquaintance knows more colonels than civilians? Can it be that the preponderance of colonels among his people is so decided that he must bow to the times of the majority? To each of these questions, reason and conscience force an affirmative reply. We have thus arrived at one fact: that the majority of males in South Carolina are colonels.

The Hickman Courier says that Hon. C. M. Vaughn appears to have an open field in the race to represent Hickman and Fulton counties in the Legislature. He made an excellent member in the last Legislature.—*Frankfort Journal.*
